

Teacher-Leader Sandbox: The Post Twitter Revolution is Here! The Center for Transformational Leadership

Professional Development for Independent School Teachers and Administrators.

Join this pioneering collaboration as we launch the era of post-Twitter chat professional learning for pk-12 educators. Using the Zoom video platform, educators will gather for one or more of eight one-hour sessions to learn and share ideas focused on skills that allow teachers to rise as effective leaders—in their classrooms, as innovators, and with colleague teams—in this time of increasing VUCA (volatility, uncertainty, complexity, ambiguity). Rather than limiting our interactions to 140 characters, these monthly moderated meet-ups will allow face-to-face, relation-rich learning with and by educator colleagues who can share what works, what doesn't, and how to become a more effective leader for and with your students.
